Subcategory	Fall arrest lanyards

ABSORBICA®

ABSORBICA is a compact energy absorber designed to be used in combination with a JANE lanyard to make a fall-arrest lanyard. Very compact, it minimizes bulk on the harness. Equipped with tear-webbing inside an openable pouch, the absorber is protected from abrasion while allowing for regular inspection.

Designed to be used in combination with a JANE-I or JANE-Y lanyard to make a fall-arrest lanyard with a maximum length of two meters.

The energy absorber is very compact to avoid hindering the user's movements or interfering with work.

In the event of a fall, the progressive tearing of the energy absorber webbing limits the impact force on the user. The lanyards are designed for users who weigh between 60 and 140 kg.

The pouch's simple opening system allows the user to quickly access the absorber to make regular inspection easier.

Short Description Compact energy absorber

Selling Points

- Designed to be used in combination with a JANE-I or JANE-Y lanyard to make a fall-arrest lanyard with a maximum length of two meters
- Absorbs energy in the event of a fall:
 - Progressive tearing of the energy absorber webbing limits the impact force on the user
 - Works with users who weigh between 60 and 140 kg
- Minimal bulk: very compact design doesn't hinder the user during progression
- Durable fabric pouch with a simple opening system protects the energy absorber from abrasion or contaminants while allowing for regular inspection of the absorber
- Two options for installation on the harness, depending on use:
 - Frequent connection/disconnection: using either a carabiner held in the correct position by the STRING accessory (included with the absorber), or a MICRO SWIVEL to avoid tangling
 - Semi-permanent connection: using either a RING OPEN gated ring whose circular shape allows optimal positioning, or a SWIVEL OPEN to avoid tangling

Specification

- Certification(s): CE EN 355
- Material(s): Polyester, nylon
