Merits

- With 105 white, yellow, and RGB beads, PL8R boasts 0°–360° hue that can be adjusted in 0%–100% saturation and brightness. Light color design concept is based on 3.6 million colors to create the atmosphere in small fashion shows, live streaming and more.
- Built-in 13 preset lighting modes with flexible brightness and frequency control help you achieve creative shooting, like Fire, Fireworks, TV, Party, Explosion, Lightning.

- PL8R features 5000mAh large capacity battery to perform functions of bright fill light and emergency power bank. Magnetic back allows it to be mounted directly on metal, easy application in filming.
- It supports APP remote control and accesses to the COLBOR lighting ecosystem for synchronized light effect control and customized scenes.

Product Information

Color Rendering Index (CRI)	≥98
Color Temperature Range	2500K–9000K
Number of bead	105
Power	8W
Battery Capacity	5000mAh
Runtime	About 125 minutes at 100% brightness
Power Input	Type-C
Power Output	Type-A
Housing Material	ABS
Dimension	125*75*17mm
Net Weight	187g
