

## **Declaration of Conformity**

| For the following equipment:   |                               |   |                                      |
|--|-------------------------------|---|--------------------------------------|
| Product Name: Switching Power Supplies   |                               |   |                                      |
| Model Designation: LPX-20-Y (X=V, Y=5,12,15,24) (X=C, Y=350,700)   |                               |   |                                      |
| is herewith confirmed to comply with the requirements set out in the Council Directive, the following standards were applied :   |                               |   |                                      |
| RoHS Directive (2011/65/EU)  |                               |   |                                      |
| Low Voltage Directive (2014/35/EU):  |                               |   |                                      |
| EN60950-1: 2006+A11:2009+A1:2010+A12:2011+A2:2013 LVD certificate No : PSE102-1245-2   |                               |   |                                      |
| Electromagnetic Compa<br>EMI (Electro-Magnetic Inte<br>Conducted emission / Radia  |                               | /EU) :  | Class B                              |
| Harmonic current   | EN61000-3-2:2014              |   |                                      |
| Voltage flicker  | EN61000-3-3:2013              |   |                                      |
| EMS (Electro-Magnetic Susceptibility)  |                               |   |                                      |
| EN55024:2010+A1:2015   |                               |   |                                      |
| ESD air  | EN61000-4-2:2009              | Level 3                                       | 8KV                                  |
| ESD contact  | EN61000-4-2:2009              | Level 2                                       | 4KV                                  |
| RF field susceptibility  | EN61000-4-3:2006+A1:2008-     | +A2:2010 Level 2                              | 3V/m                                 |
| EFT bursts   | EN61000-4-4:2012              | Level 2                                       | 1KV/5KHz                             |
| Surge susceptibility   | EN61000-4-5:2014              | Level 3                                       | 1KV/Line-Line                        |
| Conducted susceptibility   | EN61000-4-6:2014              | Level 2                                       | 3V                                   |
| Magnetic field immunity  | EN61000-4-8:2010              | Level 2                                       | 3A/m                                 |
| Voltage dip, interruption  | EN61000-4-11:2004 >95% dip 0. | .5 periods 30% dip 25 per                     | riods >95% interruptions 250 periods |
| Note: The power supply is considered as a component that will be operated in combination with final equipment. Since EMC performance will be affected by the complete installation, the final equipment manufacturers must re-qualify EMC Directive on the complete installation again.  For guidance on how to perform these EMC tests, please refer to TDF (Technical Documentation File). |                               |   |                                      |
