

COLBOR VM2 Kit V-mount Battery Adapter with cable

- **【Unique Design for COLBOR CL60/CL100X Series】** COLBOR VM2 Kit is an accessory designed for COLBOR CL60/CL100X series video lights including (CL60/CL60M/CL60R/CL100X/CL100XM). The V-Mount adapter and cable can directly connect video light and V-Mount battery. Compared with other products, charging is more convenient and easy.
- **【Special Support Type-C Charging】** This accessory includes a unique D-tap to Type-C cable, specially designed to provide a stable power supply for the CL60/CL100X series COB video light, making the shooting process safe and stable. It works with your V-Lock battery such as Moman Power99/Power 99 Pro/Nano One.
- **【Quick Installation】** There is no need to attach the V-Mount plate to the tripod like traditional accessories. You just need to put the adapter plate on the rails of the CL60/CL100X, then mount the V-mount battery on the plate, and finally connect the CL60/CL100X to the battery via the D-tap cable. It can be installed quickly and successfully.
- **【Please Attention】** COLBOR VM2 is only compatible for COLBOR CL60/CL100X Series Video Light. DO NOT use for smartphone/computer charging and any other uses.
